

T 16. Rebussen

Doel: Samenwerken, taalvaardigheid en kritisch luisteren.

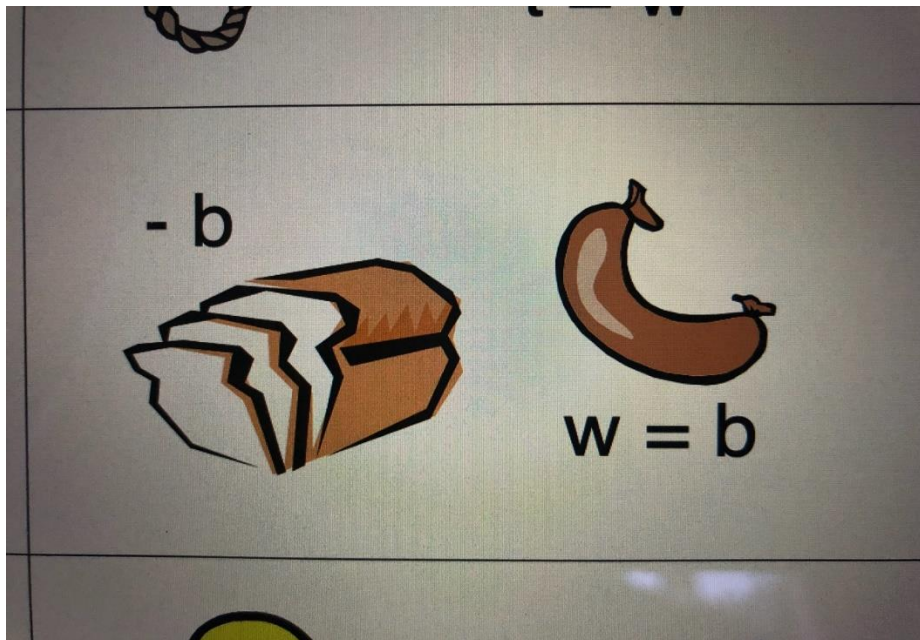

We verdelen de groep in groepjes van 3: een verteller, een schrijver en een begeleider.

De verteller krijgt de plaatjes en vertelt de schrijver wát hij moet opschrijven/veranderen, en aanvullen. De begeleider doet liefst niets.

De schrijver mag het woord zeggen als hij het weet.

Dan het volgende raadsel.

De begeleider doet eerst een voorbeeld in het groot als demonstratie.

Brood - b =	rood
Worst, b = r	borst
Woord=	roodborst
